

Call for Papers PCIC Europe 2011

8th Petroleum and Chemical Industry Conference Europe Electrical and Instrument Applications June 7th- 9th 2011, Rome - Italy

The 8th PCIC Europe Conference will be organized in Rome in June 2011. The conference programme will include plenary presentations as well as presentations on specific topics in the field of electrical and instrumentation technology. Experts from:

- End users
- Engineering companies and manufacturers
- Regulators and insurance institutions
- The European Commission

are invited to present contributions with the intention to inform about their experience and recent progress. The subjects selected for the conference are issued from lessons learnt out of field experiences. New solutions to achieve benefit concerning costs and safety are welcome to be presented.

Calls for papers

Experts in the field of Electrical and Instrumentation Applications in the Petroleum and Chemical Industry are invited to submit their contributions to the 8th PCIC Europe Conference.

Please submit your abstract to the Secretary of the PCIC Europe Committee terence.hazel@pcic-europe.eu before September 19th, 2010.

Your abstract should indicate the main ideas of your presentation and should not exceed 1 page (A4 size).
